

# Roby Park Primary School

## Year 4 Geography

### Why are Rivers Important?

## Thinking Homework

Your child must complete at least one activity from the chart below.  
 Films or photographs can be uploaded to your child's Seesaw profile.

Please return completed tasks on  
**Thursday 25<sup>th</sup> March**

Knowing	Understanding	Applying	Analysing	Creating	Evaluating
Write a story with a water theme, maybe a river monster that comes to life? Use your imagination	Write an acrostic poem. R I V E R S	Imagine you are a water molecule(!) and write a diary of your journey from the source of the river to its mouth. Include all the things that you pass and use technical language (e.g. confluence)	Find out the length of at least 10 different rivers and order them.	Create a leaflet or poster that helps people understand the importance of saving water.	Make a list of ways that water is essential to people, plants and animals. What would happen if there was no more rain?
Recording		Researching		Designing and/or Making	
Use a 2-litre plastic bottle with the top cut off to make a rain gauge. Keep a record of the amount of rainfall over 2 weeks. Present your findings.		Research statistics of a range of different rivers (e.g. length, number of countries it travels through, maximum width) and make into a set of top trumps cards.		Make a rain maker using small pebbles or seeds. Decorate it using a river theme?
