

Roby Park Primary School Year 1  
Biology  
Plants

### We already know:

- ✓ about similarities and differences in relation to places, objects, materials and living things.
- ✓ about the features of our own immediate environment and how environments might vary from one another.
- ✓ why some things occur and talk about changes

### We are learning to:

- Identify and name a variety of common wild and garden plants, including deciduous and evergreen trees.
- Identify and describe the basic structure of a variety of common flowering plants, including trees.

## Biology

### Plants

#### We already know:

- ✓ about similarities and differences in relation to places, objects, materials and living things.
- ✓ about the features of our own immediate environment and how environments might vary from one another.
- ✓ why some things occur and talk about changes

#### Key Vocabulary

**Roots** - Hold the plant in the ground and absorb water and nutrients from the soil

**Stem** - Transports water and nutrients to different parts of the plant.

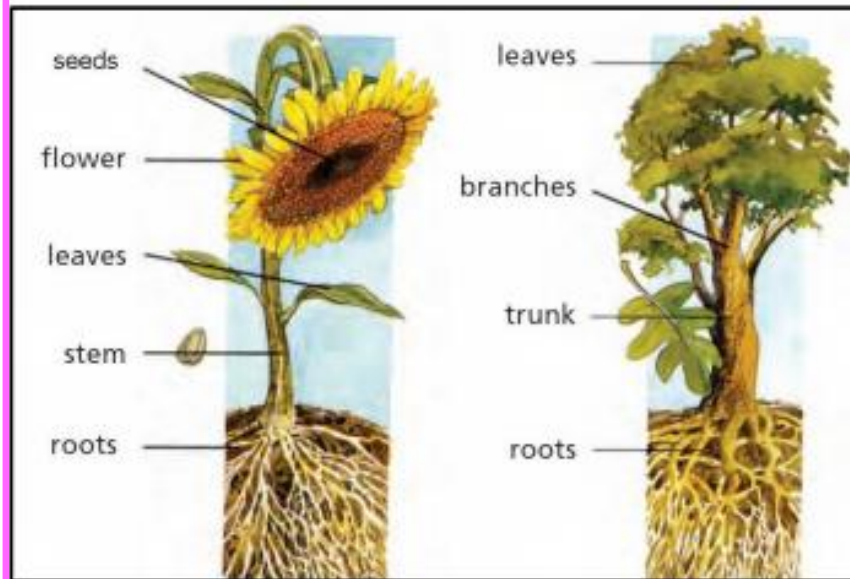

**Leaves** - Use light, air and water to make food for the plant.

**Flowers** - The part of the plant that blossoms. Flowers produce the seeds that form new plants.

**Petals** - Attract pollinators using their bright colours or unusual shapes.

**Trunk** - The stem of a tree, from which its branches grow.

#### The Power of Four

A wild plant will grow by itself. It does not need to be cared for. If it grows somewhere unwanted, it may be a weed.

Plants are living things. Most have roots which they use to absorb water and nutrients, and leaves which they use to absorb sunlight. Plants come in many different shapes and sizes, and live in different habitats around the world. Plants are part of the food chain and many are eaten by animals.

## 3Ws

What part of a flower attracts bees and butterflies?

What is special about an evergreen tree?

Which part of a flower or plant transports water?

## 3 2 1

Name 3 parts of a flower

.....  
 .....  
 .....

List 2 parts of a tree

.....  
 .....

Recall 1 deciduous tree.

.....

Name 5 common plants or trees.

## VOCABULARY UNSCRAMBLE

Attract pollinators using their bright colours or unusual shapes.

\_\_\_\_\_

The stem of a tree, from which its branches grow.

\_\_\_\_\_

The part of a plant from which a new plant can grow

\_\_\_\_\_

Speedy Pencil. Write as much as you can remember in 5 minutes

.....  
 .....  
 .....
